{ //* LY 2004/08/22 Shifted these No Visual Control to the end.
  Note, Any new formula must be added before these No Visual Control.
  Because when the saving new setting in Filter/formula, the value
  for these formula must be upadted by the above formula.
  eg the Lower/higher Value for group is updated by
     CSALES CSFIELD CSAMTLO CSAMTHI }
SRCTRLGRP SRCTRLGRPLO SRCTRLGRPHI
GROUP     TOPN

{ All the Formulae Start with IP' are used for Parameters,
  they must accompanied by Procedure Parameter,
  Note: Internal means it is not required in the report,
  Delphi needs that Internally to handle parameters
}
