

# CHECKLINK

## CONTENTS

Overview ..... 2

# OVERVIEW

A new mobile app is now available for clients to self-check-in. The app can be downloaded to an Android or Apple tablet. Clients arriving at the clinic can then use the tablet to find themselves and check themselves in. Checking in will arrive the client/patient in the diary in VetlinkPRO.

Based on your configuration preferences, the app allows clients to take a picture of their pet, enter the weight and check contact details. These options are controlled by a setup option in the app to turn on or off.

Contact [sales@cfl.co.nz](mailto:sales@cfl.co.nz) to enable to app.
